

CellPress

Publishing with *Chem* from Cell Press

Dr. Huaiju Wang

2022–present Scientific Editor, *Chem*, Cell Press
2020–2021 Postdoctoral research, Universität Regensburg
2015–2020 PhD in organic chemistry, Princeton University

Chem introduction

Chem is the first chemistry journal from Cell Press and sister journal to Cell. It is launched to publish high-profile papers in general chemistry subject and provides a home for insightful/game changing research for potential solutions to the global challenges of tomorrow. The scopes of Chem is strongly connected to the United Nation Sustainable Development Goals (UNSDG). As the premier journal of Cell Press as well as Cell, Chem is devoted to contribute positive impact of chemistry on society and targeting to be one of the leading journals in Chemistry. The 2020 impact factor of Chem is 22.8.
